Location: Hyderabad, India

PROFESSIONAL SUMMARY

Computer Science graduate with experience in full-stack development, REST APIs, and security-focused problem solving. Skilled in Python, networking fundamentals, Linux, and web technologies with growing hands-on exposure to Cyber Security, vulnerability assessment, and secure application development. Interested in SOC analysis, application security, cloud security, and cybersecurity engineering roles.

TECHNICAL SKILLS

- **Languages** – Python, SQL, JAVA, C, JavaScript, TypeScript.
- **Databases** – MySQL, MongoDB.
- **AI & ML** - OpenCV, Machine Learning, Data Analysis, LLM Basics, CNN, TensorFlow, NumPy, Pandas.
- **Tools & Platform** - Git, GitHub, VS Code, Postman, Kali Linux, VirtualBox, Nmap, Wireshark.
- **Cyber Security** – Networking Fundamentals, Linux Basics, Web Security, OWASP Top 10, Vulnerability Assessment, Wireshark, Nmap, Basic Penetration Testing, Authentication & Authorization.

EXPERIENCE

SDE Intern | BlueStock Fintech | [LINK](#)

January 2025 – February 2025

- Replicated 10+ Figma designs into a responsive MERN stack application with 95%-pixel accuracy.
- Developed and integrated 15+ secure REST APIs using Node.js and MongoDB with authentication, validation, and optimized data handling, improving retrieval speed by 30%.

Cloud Lead | GDSC (GDG now) | [LINK](#)

October 2023 – July 2024

- Organized cloud-focused events, engaging 200+ participants and increasing participation by 40%.
- Worked with Vercel, Supabase, AWS basics.

PROJECTS

Adaptive Secure Edge–Cloud Post-Quantum Cryptography Framework | [LINK](#)

January 2026 – July 2026

- Developed and deployed an adaptive IoT security framework using Python, FastAPI, Streamlit, Docker, and Post-Quantum Cryptography (ML-KEM, ML-DSA) for threat-aware secure edge–cloud communication. [[Frontend](#) | [Backend](#)]

Song Recommendation Using Facial Expression | [LINK](#)

May 2024 –June 2024

- Built an AI-based facial emotion music recommendation system using OpenCV, Python, and CNN-based emotion detection trained on 20,000+ images. Implemented real-time webcam emotion recognition and dynamic music recommendation mapping.

BlueStock | [LINK](#)

January 2025 – February 2025

- Built a responsive stock screener using React, TypeScript, Chart.js, and REST APIs for real-time stock visualization and filtering.

- Designed and developed a responsive website for the "Convergence" college fest with event schedules and registration forms using Next.js and Node.js.

EDUCATION

JNTUH College of Engineering	Secunderabad, Telangana
Masters of Technology – CFIS	October 2025 – September 2027
Relevant Coursework: Computer Networks, Cyber Security Fundamentals, Cryptography, Operating Systems	
St. Martin’s Engineering College	Secunderabad, Telangana
Bachelors of Technology – CSE (AI & ML); GPA: 8.1	December 2021 - May 2025
Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Machine Learning	

ACHIEVEMENTS

- Winner of the SwayamKrushi Entrepreneurship Event organized by the college.
- Winner of MARIT hackathon 2025 conducted in St. Martin’s Engineering College.
